## Wet and dry vacuum cleaner

- One Piece Rigid Stainless Steel Construction** - Large stainless steel tank improves productivity and ensures operation in the toughest cleaning environment. Emptying is kept to a minimum and provides excellent protection from knocks and bumps to ensure a longer working life for the unit.
- Silent Operation** - The low working noise level makes this machine the quietest in its class. A luxury feature for a comfortable working environment.
- Superior suction performance** - The twin turbine motor produces enough air flow and suction power to give you a better result in less time.
- Push&Clean Filter Cleaning (ATTIX 961-01 only)** - When you block the fitting for the air inlet or the hose and push the filter cleaning button, the surrounding air enters the container, passes through the filter cartridge in the opposite direction. The dirt is blasted off the filter and the suction performance is high once more.
- Sit Down Tank Emptying (SD model)** - No need to remove the motor head for emptying the tank. A lever simply lowers and detaches the tank, so it can be rolled away for emptying.

### Technical Specifications

Description (unit)	ATTIX 961-01	ATTIX 965-21 SD XC
Power (max) (W)	2 x 1500/1100*	2 x 1500
Power (IEC) (W)	2 x 1200/1000*	2 x 1200
Air flow (l/min)	2 x 3600/2900*	2 x 3600
Vacuum (mbar)	250/230*	250
Working noise (dB(A))	67	67
Container volume (l)	70	50
LxWxH (mm)	580x600x970	615x690x990
Weight (kg)	28	35

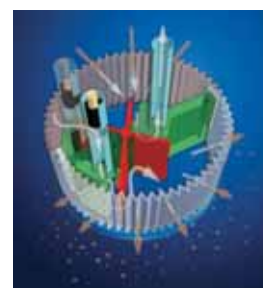

### Standard Accessories

Disposal Bag		•
Disposal Bag x 5		•

\* denotes specifications for 110v version

230 & 110 volt versions available on ATTIX 961-01, all other models 230 volt only.

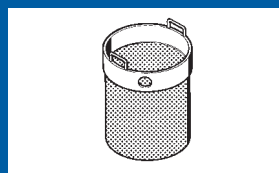

### Filter Cleaning System

The XtremeClean technology\* is based on a valve controlled principle, using the air flow to clean one half of the filter cartridge - despite still working with the other half. The dirt is blasted off the filter and the suction performance is always maintained.

\* ATTIX 965-21 SD XC only

### Optional Accessories (see product catalogue for further accessories)

#### Metal Chip Basket

Collects large debris when wet vacuuming - 302001612 (SD) / 302003003 (Other models)

#### Airbox (For -21 models)

When connected to the Auto On/Off receptacle on the vacuum, and to a pneumatic tool. The airbox turns the machine on/off automatically with the tool. - 302001192/302001474

#### Accessory Basket

Keeps all accessories close to hand, clips onto machine.

#### Forklift Disposal Device

For use with the SD version. The container can be fork lifted to the skip/bin and the contents disposed of.
